**Medical Wear &
CSI Solutions**

**REUSABLE • ETHICAL •
DESIGNED WITH CARE**

Gracious Nubian™

Regulatory & Clinical Positioning

Gracious Nubian™ develops and manufactures **reusable medical hygiene** textiles grounded in medical-device discipline.

Our product journey originated with **reusable sanitary pads classified as a medical device**, requiring strict attention to **hygiene, safety, durability and user comfort**.

These same principles inform our **medical clothing and hospital linen**, ensuring products suitable for clinical environments, aligned with **South African National Standards (SANS)** and responsible healthcare procurement practices.

Founder's Insight

Gracious Nubian™ was built from a healthcare need, not a fashion concept.

Starting with a medical device taught us that **comfort, dignity and hygiene are not optional** — they are clinical requirements. That foundation continues to guide how we design and manufacture every medical textile we produce today.

Gracious Nubian™

Beulah™

Reusable Sanitary Pads

Our story started with reusable sanitary pads — a medical device designed with dignity and care — and has grown into medical uniforms, bed linen and other reusable healthcare textiles.

Beulah™ reusable sanitary pads are washable, reusable, eco-friendly and hypo-allergenic.

They are SABS approved and internationally award-winning, making them ideal for CSI and ESG-aligned initiatives.

Beulah™ pads support menstrual dignity programmes, community outreach and institutional CSI initiatives while reducing waste.

Gracious Nubian™

Medical Scrubs
